**Lisa Robinson, MD, FRCP(C)**  
Head, Division of Nephrology, SickKids  
Senior Scientist, Cell Biology, SickKids  
Chief Diversity Officer,  
Faculty of Medicine, UofT  
Professor, Faculty of Medicine, Dept  
of Paediatrics, UofT  
Canada Research Chair, Leukocyte  
Migration in Inflammation & Injury

Prof. Robinson received the 2010 Harry Jerome Health Sciences Award from the Black Business & Professional Association. She is also a Faculty Mentor in the Diversity Mentorship Program and a member of the Black Canadians Admissions Subcommittee. At SickKids, Prof. Robinson is the founder and director of Kids Science, which provides opportunities for "at-risk" middle- and high-school students. She also founded the Student Advancement Research (StAR) Program, which offers high school students from Black and Aboriginal backgrounds a six-week paid, hands-on research and clinical shadowing internship.

As Chief Diversity Officer, Dr. Robinson provides leadership on matters of diversity and inclusion. The Chief Diversity Officer works collaboratively to build alliances, develop strategic partnerships, and engage internal and external partners to enhance and promote the diversity of faculty, learners and staff across the Faculty of Medicine.
